Education

Anna University, Chennai

Doctor of Philosophy in Computer Science & Engineering (Part-time)
Research Area: Generative AI-driven Enterprise Knowledge Management using RAG.

Coimbatore, India
Jan 2026

Anna University, Chennai

Master of Engineering in Software Engineering (Full-time)
CGPA: 8.03/10, Anna University, Coimbatore, Rank 1

Coimbatore, India
May 2014 - June 2016

Anna University, Chennai

Bachelor of Engineering in Electronics and Communication Engineering (Full-time)
CGPA: 6.59/10

Coimbatore, India
May 2010 - Apr 2014

Work Experience

Capgemini

Consultant | Global Knowledge Management
Client: Stanley Black & Decker-US, CG IKH Gen-AI Portal

Coimbatore, India
June 2022 to Present

- **ServiceNow Certification:** [ServiceNow Certified System Administrator \(CSA\)](#) with knowledge of ITSM best practices, workflow automation, platform administration, and enterprise service management.
- **HR Knowledge Management & Self-Service:** Lead global HR Knowledge Management initiatives across ServiceNow, SharePoint, Salesforce, HR portals, and enterprise repositories, enabling accurate, searchable, reusable, and persona-relevant employee information.
- **Knowledge Architecture & Taxonomy:** Design and maintain knowledge architecture, taxonomy, metadata, article templates, categorization, and content standards to improve discoverability, consistency, reuse, and search effectiveness.
- **ServiceNow Knowledge Management:** Manage and optimize ServiceNow Knowledge content through structured categorization, ownership, audience/user criteria, workflows, governance standards, and content lifecycle practices supporting employee self-service.
- **Content Lifecycle Governance:** Govern the complete knowledge lifecycle covering content intake, SME review, stakeholder approval, publishing, ownership, version control, periodic review, renewal, updates, and retirement.
- **SharePoint & Content Repository Governance:** Govern HR content across SharePoint, ServiceNow, Salesforce, and other repositories, identifying duplicate, outdated, fragmented, and inconsistent content and driving cleanup, harmonization, consolidation, and reuse.
- **HR Content Strategy & Development:** Develop and maintain 500+ HR knowledge guides for Employee Services, translating complex processes and employee information into structured, plain-language, searchable content aligned with employee and support needs.
- **Content Migration & Harmonization:** Lead content inventory, cleanup, migration, restructuring, and maintenance across SharePoint sites and legacy repositories to improve content quality, accessibility, findability, consistency, and maintainability.
- **SME & Stakeholder Governance:** Partner with HR stakeholders, SMEs, ServiceNow/platform teams, client stakeholders, and process owners to establish governance, resolve knowledge gaps, maintain content accuracy, and align information with business processes and policies.
- **Knowledge Analytics & Self-Service:** Analyze ServiceNow knowledge usage, cases without corresponding Knowledge Articles, SharePoint usage, and content trends to identify knowledge gaps, improve self-service adoption, and support case-deflection opportunities.
- **Knowledge Enablement & Standards:** Enable SMEs and content owners through writing standards, article templates, documentation, practical guidance, and knowledge-sharing practices while coordinating cross-functional workstreams and driving adoption without direct authority.
- **Analytics, Automation & AI-Ready Knowledge:** Leverage ServiceNow analytics, Power BI, SharePoint insights, Power Automate, and Generative AI knowledge practices to improve content performance, employee experience, searchability, self-service, and readiness for AI-enabled knowledge experiences.

- **Knowledge Management Strategy:** Designed and supported enterprise Knowledge Management solutions to structure, organize, manage, retrieve, and share organizational knowledge across business and technical information environments.
- **Knowledge Architecture & Information Design:** Developed scalable knowledge architectures, information structures, content models, and organizational frameworks to improve knowledge accessibility, consistency, discoverability, and reuse.
- **Taxonomy & Metadata Management:** Developed knowledge taxonomies, classification structures, categorization approaches, and metadata concepts to organize enterprise content and improve search, navigation, and information retrieval.
- **Knowledge Portal & Repository Management:** Designed and enhanced Knowledge Management portal solutions, organizing content and repositories to support intuitive navigation, efficient search, knowledge retrieval, self-service access.
- **Content Management & Standards:** Structured, created, organized, reviewed, and maintained knowledge content using consistent content structures and standards to improve accuracy, quality, usability, and content reuse.
- **Knowledge Governance & Lifecycle:** Supported knowledge governance practices covering content ownership, review, maintenance, quality management, updates, and continuous improvement of enterprise knowledge assets.
- **Knowledge Discovery & Search:** Improved knowledge discovery and information retrieval through structured content organization, taxonomy, metadata, semantic relationships, and search-oriented information management practices.
- **Content Analysis & Knowledge Gaps:** Analyzed enterprise information and knowledge sources to identify content gaps, duplication, inconsistencies, and usability issues and supported initiatives to improve knowledge quality and accessibility.
- **Stakeholder & SME Collaboration:** Collaborated with business stakeholders, SMEs, technical teams, and content owners to gather knowledge requirements, structure information, resolve content gaps, and deliver user-focused knowledge solutions.
- **Knowledge Reuse & Self-Service:** Developed reusable knowledge structures and content models that enabled users to efficiently locate, understand, and reuse relevant organizational information through self-service knowledge experiences.
- **Intelligent Knowledge & Semantic Technologies:** Applied Natural Language Understanding, semantic technologies, and emerging Generative AI capabilities to enhance knowledge discovery, content interpretation, information retrieval, and intelligent access to enterprise knowledge.
- **Continuous Improvement & Scalable KM:** Supported continuous improvement and scalable Knowledge Management solutions by evaluating user needs, content performance, information structures, and emerging technologies to enhance knowledge accessibility and overall user experience.

National Institute of Technology, Karnataka

Mangalore, India

Assistant Lecturer (aka) Temporary Faculty | Information Technology

July 2018 to July 2020

- **Implemented Flipped Classroom Methodology:** Successfully introduced and integrated a flipped classroom environment in the Human-Computer Interaction course, enhancing student engagement and learning outcomes.
- **Web Development and SEO Analysis:** Developed and optimized the college website, focusing on front-end development and SEO analysis to improve user experience and search engine rankings.
- **Specialized in Web and E-learning Technologies:** Extensively worked with web technologies, web semantics, and human-computer interaction tools. Applied these skills in developing e-learning applications, including game-based learning, mobile learning (M-learning), and flipped classroom environments.
- **Courses Taught:** Expertly taught various courses including Web Technologies and Applications, Semantic Web Technologies, Human-Computer Interaction, and Computer Organization and Architecture.
- **Polling Officer:** Acted as a polling officer during student elections, ensuring a fair and transparent voting process.
- **NIRF Data Collection:** Contributed to the National Institutional Ranking Framework (NIRF) data collection, focusing on enhancing the institute's outreach and inclusive metrics.

Coimbatore Institute of Engineering and Technology

Coimbatore, India

Assistant Professor | Computer Science

Aug 2016 to July 2018

- Academic and Administrative staff
- EMS University Coordinator

Publications

1. Nandini, Ankit, Nilita **Vishnuvardhan V**, V Ashwin, Ram Reddy, "[Smart cane for assisting Visually impaired people](#)", IEEE, 2019
2. **Vishnuvardhan V**, "[Devise & Enlargement of Component assortment process & new optimum assortment mechanism in CB software Engineering](#)", International Journal of engineering research and Science and Technology, May 2016

Skill Set

ITSM:	Knowledge Management, Incident Management, Problem Management, Change Management, Request Management, CMDB and Service Operations,
ITSM Tools/:	Zendesk, Salesforce, Jira, ServiceNow, AEM and iManage.
DMS:	Sharepoint Online, Teamcenter, Windchill
Web Technologies:	HTML5, CSS3, Web RTC, SEO
Web Semantics:	Protégé, OWL, RDF
DV/Graphics/Illustration:	Adobe Photoshop, Adobe Illustrator, Wireframing, Canva, and Google charts
Medical Coding:	Human Anatomy, Physiology, ICD, CPT coding.
Microsoft:	Microsoft Suite, Office 365 Apps, Power BI, Microsoft SharePoint Online, PowerAutomate
Generative AI:	ChatGPT, Claude, Copilot, Prompt Engineering.

Academic Achievements and Awards

- Secured Distinction in History subject in SSLC grade X.
- Master's: University Rank Holder - Software Engineering, Batch of 2016.
- Awarded Best Outgoing Student in 2008 and 2010
